Dear Mr. Coonrod:

Re: Final Approval of PAP Amendment, Clarification of Ground H2O
Monitoring Locations, Co-Op Mining Company, Bear Canyon Mine,
ACT/015/025-87D, Folder #3, Emery County, Utah

The Division has completed a review of Co-Op Mining Company's conditional approval response to clarify ground-water monitoring locations at the Bear Canyon mine. The operator has provided thirteen copies of revised text and Plate 2-2, which reflect the addition of Co-Op Development Spring to the ground-water monitoring plan. These copies were received on February 2, 1988. This letter will serve as the Division's final approval for this permit change application. Co-Op Mining Company has now adequately addressed all the conditions required by this office to finalize this permitting action.

The Division will forward extra copies of the approved plans to appropriate state and federal agencies to update file copies of the approved mining and reclamation plan for the Bear Canyon mine. Thank you for your cooperation in completing this permitting action.

Sincerely,

D. Wayne Hedberg
Data Management Coordinator
